Extended Service Plans
enable customers to extend service coverage beyond the base warranty period and are available in one-year increments for durations of one to five years.

Enhanced Service Plans
complement Extended Service Plans and provide options for faster PC repairs to help minimize business disruption. Customers can choose from a variety of support options that suit their unique business requirements, including same day and next business day onsite services, next business day exchange, pickup and return and offsite return service.

Protection Services
safeguard customers hardware investment against accidental damages, loss of equipment, or loss of sensitive data.

Defective Media Retention(DMR)
provides a replacement drive and allows customers to keep their malfunctioning drive that contains their sensitive data. This is not a standalone service; it can be combined with onsite or offsite support.
